The Malaysia Labour Review is published biannually by the Ministry of Human Resources. It is an academic journal dedicated to promoting the study, research and dissemination of information on human resources issues and practices. The Journal invites articles on labour managements, industrial relations practices, social security and occupational safety and health related issues. The criteria for selection rely on unpublished work that is empirical in nature.

The responsibility for facts and opinions in articles rests exclusively with the individual writers. Their interpretations do not necessarily reflect the views or policies of the Ministry of Human Resources or the Government of Malaysia.
